

SOLATA

Cast Iron Boilers

SOLAIA

We are pleased to bring Solaia, a gem of European engineering and design, to the homes of America. Solaia boilers are manufactured in compliance with ISO 9002 standards and combine the high efficiency and convenient serviceability of European technology with Boyertown Furnace Company's more than 40 years of dependability, quality, and heating expertise.

Isn't it nice to know you're making the right choice?

You *can* get what you want ... and maybe more! The Solaia will provide exceptional value for your dollar, energy efficiency, proven performance, and comfort for years to come.

At the heart of it all is the belief that each homeowner is an individual and should be treated with the utmost respect. We at Boyertown Furnace are dedicated to this proposition and try to live up to it every single day.

With efficiencies up to 87.0% AFUE ...

Solaia addresses ever-growing concerns about fuel prices, the environment, and the need for preserving the world's natural resources.

Higher efficiencies are a must in Europe, where fuel bills are five times as high as they are in the United States. The Solaia's 3-pass design keeps heated flue gases inside your boiler longer for greater thermal efficiency.

*Available with Riello F5 (shown),
Riello BF5 (D.V.), Beckett AFG,
Beckett NX, or Carlin EZ-1 Oil Burners
... or Carlin EZ Gas Burner*

The optional Solaia Boiler Stand is 16" tall and can be used with the 3-5 section Solaia Boilers.

3 inches of thermal insulation to lower stand-by loss

Serviceability ...

The easy-to-remove front jacket panel allows access to a one-piece, swing-out door that is easy to open and can be completely removed from the vessel for internal inspection and overall maintenance.

A blend of technology and efficiency ...

The Solaia is a low-mass, wet-base boiler with steel push nipples. Constructed of GG20 cast iron for greater durability, excellent heat transfer, and resistance to corrosion, the Solaia is the result of over 50 years of engineering and manufacturing experience. The unique turnaround design of the rear casting creates optimal flue gas passages through the boiler for high efficiency. There are no baffles to remove and the flue passages are easily accessible for cleaning and servicing. The Solaia boiler is "Energy Star Rated" with efficiencies up to 87.0%.

Multi-Fuel Capability ... Oil or Gas!

The Solaia's service-friendly, quick-disconnect burner mount accommodates both Riello F5, Riello BF5 (D.V.), Beckett AFG, Beckett NX, and Carlin EZ-1 **oil** burners ... and the Carlin EZ **gas** burner.

Riello BF5 Oil Burner

Beckett AFG Oil Burner

Carlin EZ-1 Oil Burner

Carlin EZ Gas Burner

- *Left- or right-hinged front door is completely removable in tight installations (above)*
- *Superior serviceability with easy access to all flue passages*
- *3-pass wet-base design (below)*
- *GG20 cast iron*
- *Low mass*

- *High efficiency to 87.0%*
- *Standard design pressure to 58 psi*
- *Limited Lifetime Warranty*
- *Direct vent capabilities*
- *Positive pressure fired vessel*
- *Energy Star Rating*
- *Oil or gas fired*
