

STAINLESS STEEL CLEANER FOR RESTORING SHINE

- For stainless steel, chrome and hard washable surfaces
- Polishes and protects
- Removes light soil
- Restores shine and luster
- Oil-based cleaner
- Convenient aerosol spray
- Pleasant lemon scent

Description

Nu-Calgon's aerosol Stainless Steel Cleaner removes light soil and restores shine to stainless steel, chrome and hard, washable surfaces.

Application

Stainless Steel Cleaner is ideal for cleaning refrigerated display cases, stainless steel appliances, brushed aluminum and other shiny metal surfaces. Spray on a small area at a time, and overlap cleaned areas, polishing to perfection!

Aerosol Products

Stainless Steel Cleaner

Packaging

15 ounce can

4084-75

Directions for Use

1. Remove heavy soils from surfaces.
2. Shake can well before using.
3. Spray directly onto dry surface, holding can six to eight inches away. Wipe immediately with dry cloth.
4. Work a small area at a time, overlapping cleaned area to avoid streaks. Do not allow to air dry. Never try to clean and polish complete surface in one operation.
5. For best results on brushed finishes, polish with the grain. Continue wiping while turning cloth until surface is cleaned and polished.
6. Wipe up/clean up any over spray.

Read and understand the product's label and Safety Data Sheet ("SDS") for precautionary and first aid information.

The SDS is available on the Nu-Calgon website at www.nucalgon.com.
