Metal Drain Pan

The ultimate in drain pan design — tailored for easy distribution and installation. Full of features to make life easier on both the distributor and the contractor. Seamless, one piece metal construction with rolled edges on all sides for maximum safety and integrity. Nestable as well — a stack of 70 pans is only a foot high! Once on site, you'll never have to return to the distributor for missing parts. The fittings are packaged with the pan for simple and efficient installation. Choose between two possible drain outlet positions and install with confidence.
