

# Take Control of Your Home's Air Cleaner

## Upgrade Your Thermostat

APRILAIRE INTRODUCES THE MODEL 8476. THE INDUSTRY'S FIRST EVENT-BASED™ AIR CLEANING THERMOSTAT.

- Controls your air cleaning system — allows you to manage air purity and clean the air in your home when you need it
- Provides easy-to-read confirmation that your air is being cleaned
- Provides improved protection for your home and family from allergies and dust
- Manage your air cleaner at the touch of a button from your thermostat

- » ON 24/7 – Full time, non-stop air cleaning
- » AUTO – Cleans air when there is a heat or cool call
- » CIRC 30/HR – Circulates and cleans the air 30 minutes each hour
- » EVENT 3HR – Cleans for a 3 hour period. When you vacuum, during a party
- » ALLERGY 24HR – Cleans for a continuous 24 hour period when allergies are most uncomfortable

**Today Only – Installed for \$\_\_\_\_\_**

*Save the extra trip charge!*

The air inside your home can be significantly more polluted than the air outside—especially in today’s tighter, energy-efficient homes. That’s because pollutants including dust, pet dander, allergens, and viruses are trapped indoors with nowhere to go. It’s no wonder so many people suffer from frequent colds or aggravated allergy and asthma symptoms.

Event-Based™ Air Cleaning gives you the opportunity to clean the air in your home based upon your own needs. If someone in your home is suffering from allergies, there’s a setting to address it. If you’re kicking up extra dust while vacuuming, there’s a setting for that. And it’s only available from Aprilaire.

You can breathe easy knowing you’re doing all you can to protect the comfort and health of your family.
