Products

#B53-16R

# TACO 007 CARTRIDGE CIRCULATOR

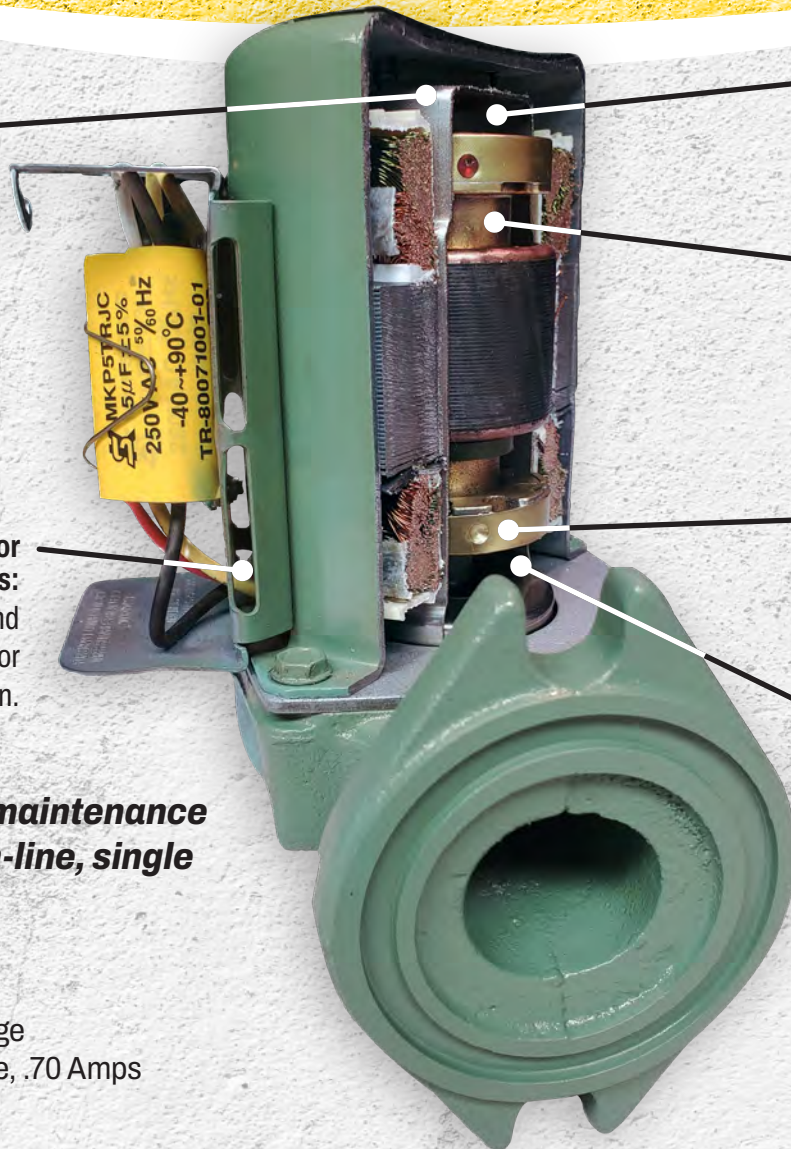

» Taking Remanufactured Products to a Higher Level «

**Oil-Filled Rotor Can:**  
Lubricates the rotor and prevents rust formation.

**Soldered Motor Connections:**  
Ensures secure and reliable connections for proper operation.

**Cartridge style, maintenance free, wet rotor, in-line, single stage circulator**

- Cast Iron
- Flanged
- 0 - 20 GPM flow range
- 115V, 60 Hz, 1 phase, .70 Amps
- 3250 RPM, 1/25 HP

**Sealed Rotor Shaft:**  
Prevents cross contamination from water and rust into the rotor shell.

**Sintered Brass Bearings:**  
Absorbs and transfers oil to lubricate rotor shaft to reduce friction and heat. More durable compared to carbon-graphite bearing.

**Lathe-Cut Brass Rings:**  
Provides more surface area for Bearing Carrier stability.

**Sealed Rotor Can:**  
Prevents oil from escaping to maintain rotor lubrication.

REMANUFACTURED ITEMS AVAILABLE ON EXCHANGE FOR SIMILAR DEFECTIVE UNITS ONLY. ALL SID HARVEY REMANUFACTURED PRODUCTS CARRY A 5 YEAR WARRANTY AND ARE REMANUFACTURED IN THE USA.
