Get to know the smarts

Place sensors in rooms around your home to enhance your ecobee smart thermostat and bring your home to life.

Product dimensions	Length: 50 mm (2 in.) Width: 40 mm (1.6 in.) Depth: 26 mm (1 in.)
Compatibility	SmartThermostat with voice control ecobee4 ecobee3 lite ecobee3
Sensors	Temperature Occupancy
Range	60 ft
Viewing angle	140° horizontal 100° vertical
Connectivity	915MHz
Storage	-31° to 113°F (-35° to 45°C) 5% to 95% RH (non-condensing)
Powering method	CR2477 Battery
Battery life	Up to 5 years
Mounting	Stands, or adhesive wall-mounts
Warranty	3-year warranty
In the box	2 sensors with detachable stands 2 adhesive wall-mounting brackets Batteries included Install guide

1. Activate

Add SmartSensor with the + button in the ecobee app. Scan the QR code then pull the tab. Follow in-app set up steps.

2a. Place on surface

Using the stand, set your sensor on a surface around 4 feet off the ground and away from exterior walls and windows.

2b. Place on wall

Got curious children or pets? Simply attach your sensor to an out-of-reach spot on an interior wall. (No tools necessary)
