

## E LITE® PLASTIC EQUIPMENT PADS

E Lite's rugged design provides uniform and generous ribbing for optimum, self-leveling ground support without inserts. The result is a pad that is lightweight, but not too light. A subtle texture prevents unit slide and presents a classic appearance, which is enhanced by rounded edges and a concrete gray color. Each pad is molded with a size label and a symbol representing content of recycled material.

### 2" E Lite® Pads

The 2" thick E Lite® pad is the choice for plastic pads. Codes have moved toward requiring 3" pads, check local codes for your requirements.

## CLADLITE® LIGHTWEIGHT CONCRETE EQUIPMENT PADS

Concrete surface and superior performance at 20% the weight of conventional concrete pads. The cladding provides superior resistance to sun, moisture and freeze-thaw conditions; the engineered expanded polystyrene (EPS) core is virtually impervious to water, soil conditions, fungus and bacteria. Large CladLite® pads are further strengthened by continuous steel reinforcement throughout the cladding. CladLite® is code approved for installation throughout the U.S.

2424-2

### 3" CladLite® Pads

Used where codes have moved toward requiring 3" pads, check local codes for your requirements.

2424-3

### 2" CladLite® Pads

The 2" thick CladLite® pad is the choice for equipment pads. Codes have moved toward requiring 3" pads, check local codes for your requirements.
